Re: 18100 TUSC RA SUK
Moore-Sams Field
Pointe Coupee Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **BP AMERICA PRODUCTION COMPANY** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the 18,100' Tuscaloosa Sand, Reservoir A, in the Moore-Sams Field, Pointe Coupee Parish, Louisiana, as established by Office of Conservation Order No. 1063, effective May 1, 1979, and supplemented thereto by the 1063-A Series of Office of Conservation Orders, including the unit designated 18100 TUSC RA SUK:

1. To permit the applicant to drill, designate and utilize its Jarreau No. 1 Well as substitute unit well for the 18100 TUSC RA SUK, said well located approximately as shown on the plat attached hereto, in accordance with the spacing provisions of Office of Conservation Order No. 1063, effective May 1, 1979.
2. To find that the proposed substitute unit well is necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within such unit.
3. To find that a tolerance of no closer than 200 feet from the nearest unit line for the proposed substitute unit well is necessary to account for the possible variance between the proposed location and the "as drilled" location.

January 5, 2006

4. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 1063 as supplemented by the 1063-A Series of Office of Conservation Orders, the units created thereby, and applicable Statewide Orders.
5. To consider such other matters as may be pertinent.

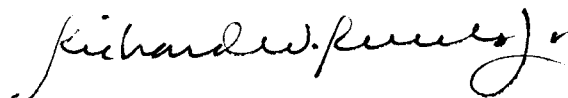

The 18,100' Tuscaloosa Sand, Reservoir A, in the Moore-Sams Field, Pointe Coupee Parish, Louisiana, was defined in Office of Conservation Order No. 1063, effective May 1, 1979.

The existing unit well, the L. J. Harlaux No. 1 Well, is no longer producing from the 18100 TUSC RA SUK and has been plugged. It is the applicant's opinion that the proposed substitute unit well is necessary to efficiently and economically drain that portion of the reservoir covered by subject unit and that such drilling, designation and use will be in the interest of conservation and will cause no harm or injury to others.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal, along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed is our check on behalf of the applicant, in the amount of \$755.00 made payable to the Office of Conservation and representing the required hearing application fee.

Very truly yours,

Richard W. Revels, Jr.
